Checklist for AAPOR TI

Survey: Boston Mayoral Poll

| TI Disclosure Elements | Answers | |
|--|--|--|
| Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed. | Emerson College | |
| The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results. | See Below | |
| 3. A definition of the population under study and its geographic location. | Registered Voters in Boston | |
| 4. Dates of data collection. | April 27-28 ,2021 | |
| 5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated. | Data was collected using a list of 25,000 mobile numbers and 20,000 landlines provided by Aristotle Inc. | |
| 6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party. | Aristotle, LLC | |
| 7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents. | | |
| 8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods. | See #5 | |
| 9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered. | IVR and SMS-to-web | |

| 10. Sample sizes (by sampling frame if more than on was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non- probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples. | The sample consisted of registered voters, n=860, with a Credibility Interval (CI) similar to a poll's margin of error (MOE) of +/- 3.3% percentage points. A screening question was asked if the voter was registered. If the respondent said they were not registered, they were eliminated from the sample. |
|---|---|
| 11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported. | The data was weighted by age, education, party registration, race and region based on 2021 voter turnout modeling. |
| 12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. Reviewer: Type NA if not applicable. | N/A |
| 13. Contact for obtaining more information about the study. | emersonpolling@emerson.edu |

| Have you received at least one dose of a COVID-19 vaccine? Yes, I have received one dose (go to q3) Yes, I have received two doses (go to q3) No, I have not received any doses of a COVID-19 vaccine | | | | |
|--|---------------------------------|--|--|--|

| | 9. | Using the familiar letter grading system from A through F, where A is excellent, B is good, C is e, D is poor and F is a failing grade, what overall grade would you give the Boston Public School |
| | • | since the start of COVID-19 in March 2020? |
| | Á | |
| | В | |
| | C | |
| | D | |
| | F | |
| | 10. Ho | w serious a problem do you think systemic racism is here in Boston? |
| | Very se | erious |
| | Somev | vhat serious |
| | Not tha | at serious |
| | Not at | all serious |
| | Unsure | e or no opinion |
| 11. Do you vie | ew the p | hrase "Black Lives Matter" positively or negatively? |
| | Very p | ositively |
| | Somev | vhat positively |
| | Somev | vhat negatively |
| | Very no | egatively |
| | Unsure | e or no opinion |
| 12. Do you vie | ew the E | Boston Police Department positively or negatively? |
| - | Verv po | ositively |
| | • • | what positively |

Very negatively
Unsure or no opinion

13. How confident are you in the conduct of the Boston Police Department, generally speaking?

Very confident

Somewhat confident

Not that confident

Not at all confident

Unsure or no opinion

14. Should the Mayor of Boston reallocate funding from police departments and spend that money on social services instead?

Yes

No

Unsure/No opinion

15. How many of your close friends, outside of work, are a different race than you – all of them, most of them, some of them, hardly any of them, or none of them?

All of them

Most of them

Some of them

Hardly any of them

None of them

16. Do you think the American Dream is easier to achieve in Boston than elsewhere in the US or

harder to achieve?

Easier to achieve

Harder to achieve

About the same to achieve

Unsure or no opinion

17. Which of the following professional sports teams do you think will win the next championship in their respective sport?

Bruins

Celtics

Patriots

Red Sox

No opinion

18. Can you please tell me your gender?

Male

Female

19. For statistical purposes only, can you please tell me your ethnicity?

Hispanic or Latino of any race

White or Caucasian Black or African American Asian American or Pacific Islander Other or multiple races

20. What is your age range?

18-29 years 30-44 years 45-64 years

65 or more years

21. What is the highest level of education you have attained?

High school or less Some college College graduate Postgrad or higher
