

## Checklist for AAPOR TI

**Survey:** National Poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	<b>Emerson College</b>
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	<b>See Below</b>
3. A definition of the population under study and its geographic location.	<b>Registered Voters in the United States</b>
4. Dates of data collection.	<b>November 3-4, 2021</b>
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	<b>Data was collected using a list of 50,000 landlines and 10,000 cellphones provided by Aristotle Inc. with an online panel provided by Amazon Mturk.</b>
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	<b>Aristotle, LLC</b>
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	<b>Online panel provided by Amazon MTurk</b>
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	<b>See #5</b>
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	<b>IVR, SMS-to-web, and Online</b>

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To</p>	<p><b>The sample consisted of registered voters, n=1,000, with a Credibility Interval (CI) similar to a poll's margin of error (MOE) of +/- 3 percentage points.</b>  <b>A screening question was asked if the voter was registered. If the respondent said they were not registered, they were eliminated from the sample.</b></p>
<p>avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples.</p>	
<p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>	<p><b>The data sets were weighted by age, gender, education, race, party registration, and 2020 vote based on a 2020 turnout model using L2.</b></p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. <b>Reviewer: Type NA if not applicable.</b></p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p><a href="mailto:emersonpolling@emerson.edu">emersonpolling@emerson.edu</a></p>

1. To start, can you please tell me your gender?  
Male  
Female
2. Do you approve or disapprove of the job Joe Biden is doing as President?  
Approve  
Disapprove  
Neutral or no opinion
3. What is your party affiliation?  
Not registered to vote (end)  
Democrat  
Republican  
Independent/other
4. In a hypothetical match-up, if the 2024 Presidential Election were held today, and the candidates were Donald Trump and Joe Biden, who would you vote for at this time?  
Donald Trump  
Joe Biden  
Someone else  
Undecided
5. If the 2022 midterm election were held today, would you vote for the Democratic or Republican congressional candidate on the ballot?  
Democratic candidate  
Republican candidate  
Undecided
6. Do you think currently Congress is achieving more or less than usual?  
More than usual  
Less than usual  
Unsure or no opinion
7. Do you expect your holiday gifts and purchases to arrive on time?  
Yes  
No  
Unsure or no opinion
8. Do you plan to travel for Thanksgiving?  
Yes  
No  
Unsure or no opinion

9. From what you know about the Build Back Better social spending bill, do you feel that it would make a positive impact in your life, or not?  
It would make a positive impact in my life  
It would make a negative impact in my life  
It would make no impact in my life  
Unsure
10. Do you think the current United States labor shortage is a result of high demands from laborers, or high demands from employers?  
High demands of laborers  
High demands of employers  
Both
11. Do you support or oppose increasing taxes for individuals earning greater than \$400,000?  
Support  
Oppose  
Unsure or no opinion
12. Who did you vote for in the 2020 election?  
Joe Biden  
Donald Trump  
Someone else  
Did not vote
13. For statistical purposes only, can you please tell me your ethnicity?  
Hispanic or Latino of any race  
White or Caucasian  
Black or African American  
Asian  
Other or multiple races
14. What is your age range?  
18-29 years  
30-49 years  
50-64 years  
65 or more years
15. What is the highest level of education you have attained?  
High school or less  
Some college  
College graduate  
Postgrad or higher

16. Please select the type of area where you live

Urban/city

Suburban

Rural

17. What state do you live in?
