## **Checklist for AAPOR TI**

## Survey: May 2022 Nevada Republican Primary Poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	Emerson College
<ol> <li>The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.</li> </ol>	See Below
3. A definition of the population under study and its geographic location.	Likely Republican primary voters in Nevada
4. Dates of data collection.	April 30-May 2, 2022
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	Data was collected using a list of 10,000 mobile numbers and a multi-stage probability sample of 53,186 landlines provided by L2.
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	Aristotle, LLC L2
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	N/A
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	See #5
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	IVR and SMS-to-web

10. Sample sizes (by sampling frame if more than on was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non- probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples.	The Republican primary sample consisted of likely voters, n=1,000, with a Credibility Interval (CI) similar to a poll's margin of error (MOE) of +/- 3 percentage points. A screening question was asked if the voter was a likely voter. If the respondent said they were not likely to vote, they were eliminated from the sample.
11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.	The data was weighted by gender, age, education, race, and region based on 2022 turnout modeling
<i>12.</i> If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. <i>Reviewer: Type NA if not applicable.</i>	N/A
13. Contact for obtaining more information about the study.	emersonpolling@emerson.edu

- What is your party registration? Not registered to vote (end) Democrat (end) Republican Independent (end)
- How likely are you to vote in the June 7th Republican Primary? Very likely Somewhat likely Not very likely (end) Not at all likely (end)
- In the Republican primary for Governor, who do you plan to vote for? (randomized names) Joey Gilbert (go to 5) Dean Heller (go to 5)

John Lee (go to 5) Joe Lombardo (go to 5) Guy Nohra (go to 5) Fred Simon (go to 5) Seven Achilles Evans (go to 5) Gary Evertsen (go to 5) Eddie Hamilton (go to 5) Tom Heck (go to 5) Stanleigh Harold Lusak (go to 5) Edward E. O'Brien (go to 5) William Walls (go to 5) Amber Whitley (go to 5) Barak Zilberberg (go to 5) Undecided (go to 4)

- 4. Although you are undecided, which candidate are you leaning toward at this time? (randomized names) Joey Gilbert Dean Heller John Lee Joe Lombardo Guy Nohra Fred Simon Seven Achilles Evans Gary Evertsen Eddie Hamilton Tom Heck Stanleigh Harold Lusak Edward E. O'Brien William Walls Amber Whitley Barak Zilberberg
- 5. Which candidate do you trust most to handle crime? (randomized names)

Joey Gilbert Dean Heller John Lee Joe Lombardo Guy Nohra Fred Simon Seven Achilles Evans Gary Evertsen Eddie Hamilton Tom Heck Stanleigh Harold Lusak Edward E. O'Brien William Walls Amber Whitley Barak Zilberberg Unsure

- 6. In the Republican primary for the U.S. Senate, who do you plan to vote for? (randomized names) Sam Brown (go to 8) William Conrad (go to 8) William Hockstedler (go to 8) Adam Laxalt (go to 8) Sharelle Mendenhall (go to 8) Tyler Perkins (go to 8) Carlo Poliak (go to 8) Paul Rodriguez (go to 8) Undecided (go to 7)
- 7. Although you are undecided, which candidate are you leaning toward at this time? (randomized names) Sam Brown William Conrad William Hockstedler Adam Laxalt Sharelle Mendenhall Tyler Perkins Carlo Poliak
  - Paul Rodriguez
- Which candidate do you trust most to handle immigration? (randomized names) Sam Brown William Conrad
  - William Hockstedler Adam Laxalt Sharelle Mendenhall Tyler Perkins Carlo Poliak Paul Rodriguez Unsure
- If Donald Trump endorsed a candidate, would that make you more or less likely to vote for that candidate? More likely Less likely No difference
- 10. Do you trust national media to accurately cover politics and elections?

Yes No Unsure or no opinion  Do you trust local media to accurately cover politics and elections? Yes No

Unsure or no opinion

12. What do you think is the most important issue facing Nevada?

Healthcare Education Economy (jobs, inflation, taxes) Crime Covid-19 Ukraine-Russia war Immigration Something else (please specify)

13. How long have you been a registered Republican?

Less than 1 year 1-4 years 5-10 years More than 10 years

14. Do you think Donald Trump spends too much time talking about the 2020 elections, spends too little time talking about the 2020 election, or spends about the right amount of time talking about the 2020 election? Spends too much time talking about the 2020 elections Spends too little time talking about the 2020 election Spends about the right amount of time talking about the 2020 election

15. For statistical purposes only, can you please tell me your ethnicity? Hispanic or Latino of any race White or Caucasian Black or African American Asian Other or multiple races

16. What is your age range?

18-29 years30-49 years50-64 years65 or more years

- 17. What is the highest level of education you have attained? High school or less Some college College graduate
  - Postgrad or higher

- Please select the type of area where you live Urban/city Suburban Rural
- 19. What is your gender? Male Female Nonbinary or other
- 20. What congressional district do you live in?
