

## Checklist for AAPOR TI

### Survey: April 2022 Ohio Republican Primary Poll

| TI Disclosure Elements   | Answers   |
|--|---|
| 1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.  | Emerson College   |
| 2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.   | See Below   |
| 3. A definition of the population under study and its geographic location.   | Very Likely Republican primary voters in Ohio   |
| 4. Dates of data collection.   | April 28-29, 2022   |
| 5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated. | Data was collected using a list of 10,000 mobile numbers and a multi-stage probability sample of 43,913 landlines provided by L2. |
| 6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.  | Aristotle, LLC<br><br>L2  |
| 7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.   | N/A   |
| 8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.   | See #5  |
| 9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.  | IVR and SMS-to-web  |

|  |  |
|--|--|
| <p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term “margin of error” or “margin of sampling error” in conjunction with non-probability samples.</p> | <p><b>The Republican primary sample consisted of likely voters, n=885, with a Credibility Interval (CI) similar to a poll’s margin of error (MOE) of +/- 3.2 percentage points.</b></p> <p><b>A screening question was asked if the voter was a very likely voter. If the respondent said they were not very likely to vote, they were eliminated from the sample.</b></p> |
| <p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>   | <p><b>The data was weighted by gender, age, education, race, and region based on 2022 turnout modeling</b></p>   |
| <p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. <b>Reviewer: Type NA if not applicable.</b></p>  | <p><b>N/A</b></p>  |
| <p>13. Contact for obtaining more information about the study.</p>   | <p><a href="mailto:emersonpolling@emerson.edu">emersonpolling@emerson.edu</a></p>  |

1. What is your party affiliation?

Not registered to vote (end)

Democrat

Republican

Independent

2. How likely are you to vote in the Ohio primary on May 3?

I already voted

Very likely

Somewhat likely (end)

50-50 (end)

Not very likely (end)

Not at all likely (end)

3. What primary do you plan to vote in?

Democratic primary (end)

Republican primary

4. In the Republican primary for Governor, who do you plan to vote for?

Mike Dewine (go to 6)

Joe Blystone (go to 6)

Ron Hood (go to 6)

Jim Renacci (go to 6)

Undecided

5. Although you are undecided, which candidate are you leaning towards at this time?

Mike Dewine

Joe Blystone

Ron Hood

Jim Renacci

6. In the Republican primary for Senate, who do you plan to vote for?

Matt Dolan (go to 8)

Mike Gibbons (go to )

Bill Graham (go to 8)

Josh Mandel (go to 8)

Neil Patel (go to 8)

Mark Pukita (go to 8)

Jane Timken (go to 8)

JD Vance (go to 8)

Undecided

7. Although you are undecided, which candidate are you leaning towards at this time?

Matt Dolan

Mike Gibbons

Bill Graham

Josh Mandel

Neil Patel

Mark Pukita

Jane Timken

JD Vance

8. Does Donald Trump's endorsement of a candidate make you more or less likely to vote for that candidate?

More likely

Less likely

No difference

9. For statistical purposes only, can you please tell me your ethnicity?

Hispanic or Latino of any race

White or Caucasian

Black or African American

Asian

Other or multiple races

10. What is your age range?

18-29 years

30-49 years

50-64 years

65 or more years

11. What is the highest level of education you have attained?

High school or less

Some college

College graduate

Postgrad or higher

12. Please select the type of area where you live

Urban/city

Suburban

Rural

13. What is your gender?

Male

Female

Nonbinary or other

14. What congressional district do you live in?

1st District: Rep. Steve Chabot (R)

2nd District: Rep. Brad Wenstrup (R)

3rd District: Rep. Joyce Beatty (D)

4th District: Rep. Jim Jordan (R)

5th District: Rep. Robert Latta (R)

6th District: Rep. Bill Johnson (R)

7th District: Rep. Bob Gibbs (R)

8th District: Rep. Warren Davidson (R)

9th District: Rep. Marcy Kaptur (D)

10th District: Rep. Michael Turner (R)

11th District: Rep. Shontel Brown (D)

12th District: Rep. Troy Balderson (R)

13th District: Rep. Tim Ryan (D)

14th District: Rep. David Joyce (R)

15th District: Rep. Mike Carey (R)

16th District: Rep. Anthony Gonzalez (R)
