Checklist for AAPOR TI

Survey: Pennsylvania Primary Poll (March 2022)

TI Disclosure Elements	Answers		
Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	Emerson College Nexstar Media		
The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	See Below		
3. A definition of the population under study and its geographic location.	Pennsylvania registered voters		
4. Dates of data collection.	March 26-28, 2022		
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	lation multi-stage probability sample of 35,000 landlines provided by L2, with an online panel provided by Amazon Mturk. Size of bt be		
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	Amazon MTurk L2		
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	Amazon MTurk uses opt in panels and not online ads to recruit participants		
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	See #5		
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	IVR & Online		

 10. Sample sizes (by sampling frame if more than on was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non- probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term "margin of error" or "margin of sampling error" in conjunction with non-probability samples. 11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported. 	1
12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. Reviewer: Type NA if not applicable.	
13. Contact for obtaining more information about the study.	emersonpolling@emerson.edu

- Do you approve or disapprove of the job Joe Biden is doing as President?
 Approve
 Disapprove
 Unsure or no opinion
- 2. What is your party registration?

Not registered to vote (end) Democrat (go to 3) Republican (go to 5) Independent (go to 9) 3. How likely are you to vote in the May 17th Democratic Primary? Very likely Somewhat likely Not very likely (go to 9) Not at all likely (go to 9) 4. In the Democratic primary for the U.S Senate, who do you plan to vote for? Kevin Baumlin (go to 9) John Fetterman (go to 9) Malcolm Kenyatta (go to 9) Alexandria Khalil (go to 9) Conor Lamb (go to 9) Undecided (go to 9) 5. How likely are you to vote in the May 17th Republican Primary? Very likely Somewhat likely Not very likely (go to 9) Not at all likely (go to 9) 6. In the Republican primary for Governor, who do you plan to vote for? Lou Barletta Jake Corman III Joseph Gale Charles Gerow Melissa Hart Doug Mastriano Bill McSwain David White Nche Zama Undecided 7. In the Republican primary for the U.S. Senate, who do you plan to vote for? Kathy Barnette Jeff Bartos

George Bochetto

Sean Gale

David McCormick

Mehmet Oz

Carla Sands

Undecided

8. If Donald Trump endorsed a candidate, would that make you more or less likely to vote for that candidate? More likely Less likely No difference 9. In deciding how to vote, how important to your vote is the amount of time a candidate has lived in Pennsylvania? Very important Somewhat important Unsure/Neutral Not very important Not at all important 10. Should Pennsylvania allow more or less hydraulic fracturing, sometimes called "fracking," for oil and natural gas in the state? More fracking Less fracking The same amount 11. Do you think marijuana should be legal for recreational purposes in Pennsylvania? Yes No Unsure or no opinion 12. What do you think is the most important issue facing the country? Healthcare Education Economy (jobs, inflation, taxes) Crime Covid-19 Ukraine-Russia war Immigration Something else (please specify) 13. What is the best way for Pennsylvania to handle its energy needs - by encouraging greater energy production, by encouraging greater energy conservation, or by developing alternative energy sources? Encouraging greater energy production Encouraging greater energy conservation Developing alternative energy sources 14. What do you blame for the increase in gas prices? Covid-19 Gas and oil sanctions against Russia The Biden administration Supply chain disruptions

	Gas and oil companies Unsure
15.	Do you believe Pennsylvania runs fair elections? Yes No Unsure or no opinion
16.	Who did you vote for in the 2020 election? Joe Biden Donald Trump Someone else Did not vote
17.	For statistical purposes only, can you please tell me your ethnicity? Hispanic or Latino of any race White or Caucasian Black or African American Asian Other or multiple races
18.	What is your age range? 18-29 years 30-49 years 50-64 years 65 or more years
19.	What is the highest level of education you have attained? High school or less Some college College graduate Postgrad or higher
20.	Please select the type of area where you live Urban/city Suburban Rural
21.	What is your gender Male Female Nonbinary or other

22. What congressional district do you live in?
