

Checklist for AAPOR TI

Survey: July 2022 Nevada Republican Primary Poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	Emerson College
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	See Below
3. A definition of the population under study and its geographic location.	Voters in Nevada
4. Dates of data collection.	July 7-10, 2022
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	Data was collected using a list of 40,000 mobile numbers, a multi-stage probability sample of 42,944 landlines provided by L2, and an online panel using Centiment.
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	Aristotle, LLC L2 Centiment
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	N/A
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	See #5
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	IVR, SMS-to-web, and online

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term “margin of error” or “margin of sampling error” in conjunction with non-probability samples.</p>	<p>The sample consisted of n=2,000 registered voters with a Credibility Interval (CI) similar to a poll’s margin of error (MOE) of +/- 3 percentage points.</p> <p>A screening question was asked if the voter was a registered voter. If the respondent said they were not registered to vote, they were eliminated from the sample.</p>
<p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>	<p>The data was weighted by gender, age, education, race, and region based on 2022 turnout modeling</p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. Reviewer: Type NA if not applicable.</p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p>emersonpolling@emerson.edu</p>

Nevada Statewide Poll

N = 2000 (NV-01: n = 500; NV-02: n = 500; NV-03: n = 500; NV-04 n = 500)

1. Generally speaking, would you say Nevada is moving in the right direction or headed down the wrong track?

1. Right direction
2. Wrong track

2. Do you approve or disapprove of the job that Joe Biden is doing as President?

1. Approve
2. Disapprove
3. Neutral/no opinion

3. Do you approve or disapprove of the job that Steve Sisolak is doing as Governor?

1. Approve
2. Disapprove
3. Neutral/no opinion

4. Do you approve or disapprove of the job that the Supreme Court is doing?

1. Approve
2. Disapprove
3. Neutral/no opinion

5. What is your party registration?

1. Not registered to vote [**TERMINATE**]
2. Democrat
3. Republican
4. Non-partisan
5. Other

6. If the election for United States Senate was held today, would you vote for Democrat Catherine Cortez Masto, or Republican Adam Laxalt?

1. Democrat Catherine Cortez Masto
2. Republican Adam Laxalt
3. Someone else
4. Undecided

7. If the election for Governor of Nevada was held today, would you vote for Democrat Steve Sisolak, or Republican Joe Lombardo?

1. Democrat Steve Sisolak
2. Republican Joe Lombardo
3. Someone else
4. Undecided

8. Please tell me which one of these racial or ethnic groups you identify with.

1. Hispanic or Latino of any race
2. White or Caucasian
3. Black or African American
4. Asian American or Pacific Islander
5. Other or multiple races

9. What is the highest level of education you have attained?

1. High school or less
2. Some college but no degree
3. College graduate
4. Post-graduate school or advanced degree

10. What is your age?

1. 18-29 years
2. 30-49 years
3. 50-64 years
4. 65 years or over

11. Who did you vote for in the 2020 election?

1. Joe Biden
2. Donald Trump
3. Someone else
4. Did not vote

12. Can you please tell me your gender?

1. Male
2. Female
3. Nonbinary or other
