

**Checklist for AAPOR TI Survey:**

**New York 12th District Congressional Primary Poll (August 2022)**

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	<b>Emerson College Nexstar Media</b>
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	<b>See Below</b>
3. A definition of the population under study and its geographic location.	<b>New York 12th District Democratic primary very likely voters &amp; already voted</b>
4. Dates of data collection.	<b>August 12-17, 2022</b>
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	<b>Data was collected using a multi-stage probability sample of 25,830 landlines provided by L2, a list of 30,000 mobile numbers, and an online panel from Centiment.</b>
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	<b>Aristotle, LLC L2 Centiment</b>
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	<b>N/A</b>
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	<b>See #5</b>
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	<b>IVR, SMS-to-web, Online</b>

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term “margin of error” or “margin of sampling error” in conjunction with non-probability samples.</p>	<p><b>The sample consisted of very likely Democratic primary voters and those who already voted, n=895, with a margin of error (MOE) of +/- 3.2 percentage points.</b></p> <p><b>A screening question was asked if the voter was a very likely voter or had already voted. If the respondent said they were not very likely to vote or had already voted, they were eliminated from the sample.</b></p>
<p><b>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</b></p>	<p><b>The data sets were weighted by gender, age, race/ethnicity, and education based on 2022 turnout modeling</b></p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. <i>Reviewer: Type NA if not applicable.</i></p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p><a href="mailto:emersonpolling@emerson.edu">emersonpolling@emerson.edu</a></p>

**NY-12 Poll**

1. Do you approve or disapprove of the job that Joe Biden is doing as President?
  1. Approve
  2. Disapprove
  3. Neutral or no opinion
  
2. Do you approve or disapprove of the job that Eric Adams is doing as New York City Mayor?
  1. Approve
  2. Disapprove
  3. Neutral or no opinion
  
3. What is your party registration?
  1. Not registered to vote [TERMINATE]
  2. Democrat
  3. Republican [TERMINATE]
  4. Independent or other [TERMINATE]
  
4. How likely are you to vote in the August 23rd primary for U.S. Congress?
  1. Not at all likely (TERMINATE)
  2. Not very likely (TERMINATE)
  3. Somewhat likely (TERMINATE)
  4. Very likely
  5. I already voted

5. Which primary do you plan to vote in on August 23rd?
  1. Democratic primary
  2. Republican primary (**TERMINATE**)
  3. Unsure (**TERMINATE**)
  
6. In the Democratic primary for U.S. House District 12, who do you plan to vote for?
  1. Jerry Nadler (**GO TO 8**)
  2. Carolyn Maloney (**GO TO 8**)
  3. Suraj Patel (**GO TO 8**)
  4. Ashmi Sheth (**GO TO 8**)
  5. Undecided

7. Although you are undecided, which candidate are you leaning towards at this time?
  1. Jerry Nadler
  2. Carolyn Maloney
  3. Suraj Patel
  4. Ashmi Sheth
  
8. Please tell me whether you have a favorable or unfavorable view of the following people. First, Jerry Nadler
  1. Very favorable
  2. Somewhat favorable
  3. Somewhat unfavorable
  4. Very unfavorable
  5. Unsure
  6. Never heard of this person
  
9. Next, Carolyn Maloney
  1. Very favorable
  2. Somewhat favorable
  3. Somewhat unfavorable
  4. Very unfavorable
  5. Unsure
  6. Never heard of this person
  
10. Next, Suraj Patel
  1. Very favorable
  2. Somewhat favorable
  3. Somewhat unfavorable
  4. Very unfavorable
  5. Unsure
  6. Never heard of this person
  
11. Are you more or less likely to oppose a candidate for US Congress if they oppose President Biden running for reelection in 2024?
  1. More likely
  2. Less likely
  3. No difference
  
12. Do you think the Inflation Reduction Act will reduce inflation, increase inflation or have no impact on inflation?
  1. I have not heard of the Inflation Reduction Act
  2. Reduce inflation
  3. Increase inflation
  4. No impact on inflation
  
13. Which of the following best describes your beliefs on NYPD funding?
  1. NYPD funding should increase a lot
  2. NYPD funding should increase a little
  3. NYPD funding should stay the same
  4. NYPD funding should decrease a little
  5. NYPD funding should decrease a lot
  
14. Please tell me which one of these racial or ethnic groups you identify with.
  1. Hispanic or Latino of any race
  2. White or Caucasian
  3. Black or African American
  4. Asian American or Pacific Islander
  5. Multiple races or other

15. What is the highest level of education you have attained?

1. High school or less
2. Some college but no degree
3. College graduate
4. Post-graduate school or advanced degree

16. What is your age?

1. 18-29 years
2. 30-49 years
3. 50-64 years
4. 65 years or over

17. Who did you vote for in the 2020 election?

1. Joe Biden
2. Donald Trump
3. Someone else
4. Did not vote

18. Can you please tell me your gender?

1. Male
2. Female
3. Nonbinary or other
