

Checklist for AAPOR TI

Survey: September 2022 Ohio Primary Poll

TI Disclosure Elements	Answers
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	Emerson College Nexstar Media
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	See Below
3. A definition of the population under study and its geographic location.	Very likely voters in Ohio
4. Dates of data collection.	September 12-13, 2022
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	Data was collected using a list of 20,000 mobile numbers and a multi-stage probability sample of 99,690 landlines provided by Aristotle, a web survey via email, and with an online panel provided by Amazon Mturk.
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	Aristotle, LLC Amazon MTurk
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	Amazon MTurk uses opt in panels and not online ads to recruit participants
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	See #5
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	IVR, Online, email, and SMS-to-web

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term “margin of error” or “margin of sampling error” in conjunction with non-probability samples.</p>	<p>The general election sample consisted of somewhat likely voters in Ohio, n=1,000 with a Credibility Interval (CI) similar to a poll’s margin of error (MOE) of +/- 3 percentage points.</p> <p>A screening question was asked if the voter was a likely voter. If the respondent said they were not very likely to vote, they were eliminated from the sample.</p>
<p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>	<p>The data was weighted by gender, age, education, race, and region based on 2022 turnout modeling</p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. Reviewer: Type NA if not applicable.</p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p>emersonpolling@emerson.edu</p>

1. Do you approve or disapprove of the job that Joe Biden is doing as President?
 1. Approve
 2. Disapprove
 3. Neutral/no opinion

2. What is your party affiliation?
 1. Not registered to vote (**TERMINATE**)
 2. Democrat
 3. Republican
 4. Independent or other

3. How likely are you to vote in the 2022 midterm elections?
 1. Not at all likely (**TERMINATE**)
 2. Not too likely (**TERMINATE**)
 3. Somewhat likely
 4. Very likely

4. If the election for US Senate were held today, who would you vote for at this time?
 1. Republican J.D. Vance
 2. Democrat Tim Ryan
 3. Someone else
 4. Undecided

5. If the election for Governor were held today, who would you vote for at this time?
 1. Republican Mike DeWine
 2. Democrat Nan Whaley
 3. Someone else
 4. Undecided

6. In a hypothetical match-up, if the 2024 Presidential Election were held today, and the candidates were Donald Trump and Joe Biden, who would you vote for at this time?
 1. Donald Trump
 2. Joe Biden
 3. Someone else
 4. Undecided

7. In a hypothetical match-up, if the 2024 Presidential Election were held today, and the candidates were Ron DeSantis and Joe Biden, who would you vote for at this time?
 1. Ron DeSantis
 2. Joe Biden
 3. Someone else
 4. Undecided

8. Does the recent FBI search of Mar-a-Lago make you more or less likely to support Donald Trump if he runs for election in 2024?
 1. More likely
 2. Less likely
 3. No difference

9. Do the January 6 committee findings make you more or less likely to support Donald Trump if he runs for election in 2024?
 1. More likely
 2. Less likely
 3. No difference

10. Which of the following issues is most important in determining your vote this November?
 1. Healthcare
 2. Education
 3. Economy (jobs, inflation, taxes)
 4. Crime
 5. Covid-19
 6. Immigration
 7. Housing affordability
 8. Abortion access
 9. Something else (please specify)

11. How important is it that candidates running for either Governor or US Senate participate in a debate prior to the November election?
 1. Very important
 2. Somewhat important
 3. Not too important
 4. Not at all important

12. As you may know, sports betting becomes legal in Ohio on January 1. Which of the following ways are you most likely to bet on sports?
 1. I don't plan to bet on any sports
 2. Online using betting or fantasy sports websites or apps
 3. In-person at casinos

4. In-person at a stadium or arena
 5. A combination of online and in-person betting
13. Do you support or oppose Ohio's abortion law, which prohibits abortion after six weeks, or when a fetus has a detectable heartbeat. This law has exceptions in order to save the mother's life or prevent long term impairment of the mother's bodily functions, but not for cases of rape or incest.
1. Support
 2. Oppose
14. Please tell me which one of these racial or ethnic groups you identify with.
1. Hispanic or Latino of any race
 2. White or Caucasian
 3. Black or African American
 4. Asian American or Pacific Islander
 5. Other or multiple races
15. What is the highest level of education you have attained?
1. High school or less
 2. Some college but no degree
 3. College graduate
 4. Post-graduate school or advanced degree
16. What is your age?
1. 18-34 years
 2. 35-49 years
 3. 50-64 years
 4. 65 years or over
17. Who did you vote for in the 2020 election?
1. Joe Biden
 2. Donald Trump
 3. Someone else
 4. Did not vote
18. Please select the type of area where you live
1. Urban/city
 2. Suburban
 3. Rural
19. Can you please tell me your gender?
1. Male
 2. Female
 3. Nonbinary or other
20. What congressional district do you live in?
