

**Checklist for AAPOR TI Survey:**

**National Poll (September 2022)**

<b>TI Disclosure Elements</b>	<b>Answers</b>
1. Who sponsored the TI Research and who conducted it. If different from the sponsor, the original sources of funding will also be disclosed.	<b>Emerson College</b>
2. The exact wording and presentation of questions and response options whose results are reported. This includes preceding interviewer or respondent instructions and any preceding questions that might reasonably be expected to influence responses to the reported results.	<b>See Below</b>
3. A definition of the population under study and its geographic location.	<b>Registered voters (US)</b>
4. Dates of data collection.	<b>September 20-21, 2022</b>
5. A description of the sampling frame(s) and its coverage of the target population, including mention of any segment of the target population that is not covered by the design. This may include, for example, exclusion of Alaska and Hawaii in U.S. surveys; exclusion of specific provinces or rural areas in international surveys; and exclusion of non-panel members in panel surveys. If possible the estimated size of non-covered segments will be provided. If a size estimate cannot be provided, this will be explained. If no frame or list was utilized, this will be indicated.	<b>Data was collected using a multi-stage probability sample of 89,000 landlines provided by Aristotle and an online survey via CloudResearch.</b>
6. The name of the sample supplier, if the sampling frame and/or the sample itself was provided by a third party.	<b>Aristotle, LLC Cloud Research</b>
7. The methods used to recruit the panel or participants, if the sample was drawn from a pre-recruited panel or pool of respondents.	<b>N/A</b>
8. A description of the sample design, giving a clear indication of the method by which the respondents were selected, recruited, intercepted or otherwise contacted or encountered, along with any eligibility requirements and/or oversampling. If quotas were used, the variables defining the quotas will be reported. If a within-household selection procedure was used, this will be described. The description of the sampling frame and sample design will include sufficient detail to determine whether the respondents were selected using probability or non-probability methods.	<b>See #5</b>
9. Method(s) and mode(s) used to administer the survey (e.g., CATI, CAPI, ACASI, IVR, mail survey, web survey) and the language(s) offered.	<b>Interactive Voice Response (IVR) system of landlines and an online panel</b>

<p>10. Sample sizes (by sampling frame if more than one was used) and a discussion of the precision of the findings. For probability samples, the estimates of sampling error will be reported, and the discussion will state whether or not the reported margins of sampling error or statistical analyses have been adjusted for the design effect due to weighting, clustering, or other factors. Disclosure requirements for non-probability samples are different because the precision of estimates from such samples is a model-based measure (rather than the average deviation from the population value over all possible samples). Reports of non-probability samples will only provide measures of precision if they are accompanied by a detailed description of how the underlying model was specified, its assumptions validated and the measure(s) calculated. To avoid confusion, it is best to avoid using the term “margin of error” or “margin of sampling error” in conjunction with non-probability samples.</p>	<p><b>The sample consisted of registered voters, n=1,368, with a margin of error (MOE) of +/- 2.56 percentage points.</b></p> <p><b>A screening question was asked if the voter was registered to vote. If the respondent said they were not registered to vote, they were eliminated from the sample.</b></p>
<p>11. A description of how the weights were calculated, including the variables used and the sources of weighting parameters, if weighted estimates are reported.</p>	<p><b>The data sets were weighted by gender, age, education, region, party affiliation, and race/ethnicity based on 2022 turnout modeling.</b></p>
<p>12. If the results reported are based on multiple samples or multiple modes, the preceding items will be disclosed for each. <b>Reviewer: Type NA if not applicable.</b></p>	<p>N/A</p>
<p>13. Contact for obtaining more information about the study.</p>	<p><a href="mailto:emersonpolling@emerson.edu">emersonpolling@emerson.edu</a></p>

### Survey Instrument

1. [T] Do you approve or disapprove of the job that Joe Biden is doing as President?
  1. Approve
  2. Disapprove
  3. Neutral/no opinion
  
2. [T] What is your party affiliation?
  1. Not registered to vote [TERMINATE]
  2. Democrat
  3. Republican
  4. Independent or other
  
3. [T] If the 2022 midterm elections were held today, would you vote for the Democratic or Republican congressional candidate on the ballot?
  1. Democratic candidate
  2. Republican candidate
  3. Undecided
  
4. [T] How likely are you to vote in November’s 2022 midterm election for Senate, Congress, and other offices?
  1. Definitely not
  2. Probably not
  3. 50-50
  4. Probably
  5. Almost certain
  
5. Next is a list of political activities. After each, please tell me if you plan on engaging in that political action between now and election

day.

First, do you plan to share election information on social media between now and election day?

1. Yes
2. No
3. I'm not sure

6. Next, do you plan to donate to a political candidate or campaign between now and election day?

1. Yes
2. No
3. I'm not sure

7. Next, do you plan to volunteer for a political candidate or campaign between now and election day?

1. Yes
2. No
3. I'm not sure

8. Next, do you plan to attend a political rally or campaign event between now and election day?

1. Yes
2. No
3. I'm not sure

9. Last, do you plan to bring others to the polls on election day?

1. Yes
2. No
3. I'm not sure

10. Does the overturning of Roe v. Wade make you more or less likely to vote in the 2022 elections, or does it not make a difference to you?

1. Much more likely to vote
2. Somewhat more likely to vote
3. Somewhat less likely to vote
4. Much less likely to vote
5. No difference

11. [T] In a hypothetical match-up, if the 2024 Presidential Election were held today, and the candidates were Donald Trump and Joe Biden, who would you vote for at this time?

1. Donald Trump
2. Joe Biden
3. Someone else
4. Undecided

12. [T] Does the recent FBI search of Mar-a-Lago make you more or less likely to support Donald Trump if he runs for election in 2024?

1. More likely
2. Less likely
3. No difference

13. [T] What do you think is the most important issue in determining your vote in the next election?

1. Healthcare
2. Education
3. Economy (jobs, inflation, taxes)
4. Crime
5. Immigration
6. Housing affordability
7. Abortion access
8. Threats to democracy
9. Something else (please specify)

14. Which of the following do you think is the most important issue concerning the American economy?
  1. Controlling inflation
  2. Increasing jobs
  3. Lowering gas prices
  4. Taxes
  5. Housing affordability
  6. Something else (please specify)
  
15. Do you agree or disagree that the pandemic is over?
  1. Strongly agree
  2. Somewhat agree
  3. Somewhat disagree
  4. Strongly disagree
  5. Not sure
  
16. Would you support or oppose Puerto Rico joining the US as a new state, allowing its 3.2 million citizens to elect voting Senators and Representatives, just like Americans in every other state?
  1. Support
  2. Oppose
  3. No opinion
  
17. Would you support or oppose the District of Columbia joining the US as a new state, allowing its 700 thousand citizens to elect voting Senators and Representatives, just like Americans in every other state?
  1. Support
  2. Oppose
  3. No opinion
  
18. [T] Do you believe your state runs fair elections?
  1. Yes
  2. No
  3. Unsure or no opinion
  
19. [T] What is the highest level of education you have attained?
  1. High school or less
  2. Some college but no degree
  3. College graduate
  4. Post-graduate school or advanced degree
  
20. [T] What is your age?
  1. 18-34 years
  2. 35-49 years
  3. 50-64 years
  4. 65 years or over
  
21. [T] Who did you vote for in the 2020 election?
  1. Joe Biden
  2. Donald Trump
  3. Someone else
  4. Did not vote
  
22. [T] Please select the type of area where you live
  1. Urban/city
  2. Suburban
  3. Rural
  
23. [T] Can you please tell me your gender?
  1. Male
  2. Female

3. Nonbinary or other

24. [T] State/region

25. [T] Please tell me which one of these racial or ethnic groups you identify with.

1. Hispanic or Latino of any race [CONTINUE]
2. White or Caucasian [END]
3. Black or African American [CONTINUE]
4. Asian American or Pacific Islander [CONTINUE]
5. Other or multiple races [CONTINUE]

26. Next will be a series of statements, and I would like you to tell me if you agree or disagree with each. First, “Dishonesty about being non-racist is worse than being an honest racist.”

1. Strongly agree
2. Not so strongly agree
3. Neutral
4. Strongly disagree
5. Not so strongly disagree

27. Next statement: “Because white racism is not going to disappear, the most that can be hoped for is that whites will be honest about their racism.”

1. Strongly agree
2. Not so strongly agree
3. Neutral
4. Strongly disagree
5. Not so strongly disagree
